

# Monitoring & Evaluation Services

Auditable, Objective, International-Class Impact Reporting

In today's challenging funding environment marked by significant reductions from key sources like USAID, the proactive adoption of auditable Monitoring & Evaluation (M&E) conducted by qualified professionals has moved beyond a '*best practice*'—it is now an absolute necessity for Non-governmental Organizations (NGOs). As the undeniable benchmark for demonstrating unwavering transparency and accountability to donors and well as proven impact for those in need, these rigorous M&E reports are no longer optional. They are fundamental to securing trust and future support.

The demand for regular, high-quality M&E / MEAL [extending to '*best practices*' **Accountability**, and 'lessons learned' **Learning** - skills transfer] has surged across humanitarian aid organizations, and 911Emerge-N-See meets this critical need in providing comprehensive program-process assessment and M&E reports that go beyond mere data.

## Program features include:

- Compelling project visuals: Inclusion of photos and videos to provide concrete evidence of 'on-the-ground' impact.
- Detailed, insightful analyses: Thorough reporting specifically designed for clear communication with staff, donors and board members.
- Vital asset for donor relations: Reports serve as the bedrock for building and maintaining strong, enduring relationships by unequivocally demonstrating the impactful stewardship of their contributions.

Monitoring & Evaluation work:		\$1,250/day	Monitoring & Evaluation work:		\$1,900/day
Comprehensive M&E report:		\$3,000	Comprehensive M&E report:		\$3,000
<b>Total: 4-day trip</b>		<b>\$8,000</b>	<b>Total: 4-day trip</b>		<b>\$10,600</b>

\*The number of 911ENS team members required for field analysis is determined on a case-by-case basis. For IEHK transport, delivery, inventory and distribution, this will include two 911ENS team evaluators. For smaller scale assessments such as field hospitals and clinics, one 911ENS professional may be sufficient.
